President
John J. Neuhausen

Congratulations to the Class of 2014!

You have accomplished what you set out to do and I commend you for your success. You will return to this publication of the *Hilltop* for years to come, and it will serve as a positive reminder of and tribute to our shared experiences from your years here at Saint Michael's College.

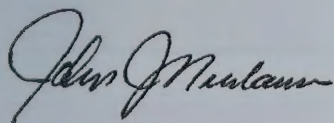

You committed to learn on many different dimensions, as well as creating supportive relationships with each other, combined with a genuine desire to succeed. You have learned to be open to others, both because you have so much to learn from each individual you encounter and because each individual has a humanity that demands attention. Intellectually, you understand this good world differently than you did when you arrived.

For the part in which faculty and staff assist in this development, I wish to express my deep gratitude for their enduring dedication to the College and to the Class of 2014. They have been a part of your education these past four years and I hope many relationships begun here will continue for a very long time. In turn, the institution has benefited from your presence during the past four years; you will be missed.

Saint Michael's College has a lasting impact on us all. Now that you have joined the ranks of the alumni, you will notice this strengthens your bond not only to the College, but to all you have learned as part of an engaged community of learning.

You have my best wishes for success in all your endeavors. Please visit us on this plain next to a lake and beneath a mountain as often as you are able.

Yours sincerely,

A handwritten signature in cursive script, reading "John J. Neuhauser".

Dedication

They say the years students spend at college can be some of the most formative of their lives. In many ways, this is true—if I hadn't gone to Saint Mike's, I probably never would have learned what a merkin was, I wouldn't occasionally refer to hand-holding as "interdigitating." While these quirks might make me fun at parties, when they surface they remind me of their source: a teacher who taught me far more than funny vocabulary.

Simply put Carey Kaplan is unlike any other person you will ever meet and she truly is one of the finest teachers this world has ever seen. She has transformed, challenged and helped countless students in the classroom and she has been an inspiration to them outside the classroom by offering advice, and letting them know they can do anything they want. Many a student will miss Carey, and she will be a tremendous loss to the English Department and to the entire Saint Michael's College Community. Here are what some of her colleagues had to say.

Christina Root, a fellow English Professor, writes:

She has a generous intelligence and is interested in everything. She loves pondering the mysteries of why people are the way they are, always without judgment; simply because she is interested in the wide variety of ways to be human. She is an extraordinarily sympathetic and supportive friend, and a privilege to know!

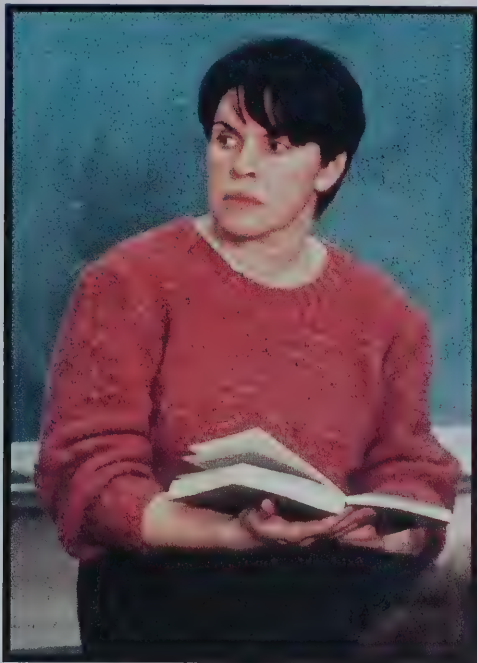

Dave Landers, Professor of Psychology and Gender Studies, shares:

Her unwillingness to compromise HER principles has always provided all of us with a necessary determination to make as much a difference in the lives of OUR students as she has with her students. From her work on getting sexual orientation included in the College's non-discrimination policy to her involvement in our Gender Studies programs, Carey is Carey and that has been enough to affect so many changes here – her legacy will be in her students and the love of life that she embraces and shares with all of us.

Susan Kuntz, Professor of Psychology, and someone Carey has written and presented with for some 20 years writes:

Of course I would be remiss if I did not mention humor. Humor and Carey seem to go together. Humor is not peripheral to her experience or to her classes. Sometimes it takes main stage and is integral to the learning. It seems to permeate her life wherever she goes. I remember a National Woman's Studies conference where we found ourselves in the midst of "beanie babies" everywhere and she suddenly shouted loudly "let me out of here;" or a walk to a castle in Prague that ended up being a trek up a mountain where she stopped a hiker and asked for a glass of wine; or a phone call she received early one morning at the Interdisciplinary conference in Salzburg where she is explaining to a renter at 4 a.m. how to turn the water on in an apartment in Burlington. I can't count the number of times we have fallen to the floor in laughter. Her humor just makes us all want to be with Carey more.

Zaf Retires

Bludevich had been the department's senior associate director of athletics since 2004, and returned to a role as the head athletic trainer in 2013-14 after previously occupying that position between 1975 and 2003. Upon his hire for the 1975-76 school year, Bludevich became the College's first full-time head athletic trainer. Since then, he had also served as the associate director of athletics, summer camp director and intramural director at various times, and coached several sports.

"I can honestly say that I leave Saint Michael's a better man than when I first got here, and that's because of the students, the faculty and the staff," said Bludevich. "For me, Saint Michael's was not a job; it was a way of life."

Letter from Editor

Congratulations Class of 2014, you did it. You packed your time here with learning, some struggling, lots of laughter and so much success. You have been and will forever be part of the Saint Michael's community that fosters leadership, service, and knowledge in and outside of academic disciplines. You now get to take what you have learned and bring it into the world wherever your life may take you. You have all been teachers to those younger than you in years, like me, and even those greater than you in years, like your professors. I hope that you continue to teach those around you, but you also continue to learn. Your friendships do not end here. You are embarking on the first of many adventures to come in your life as a Saint Michael's alum.

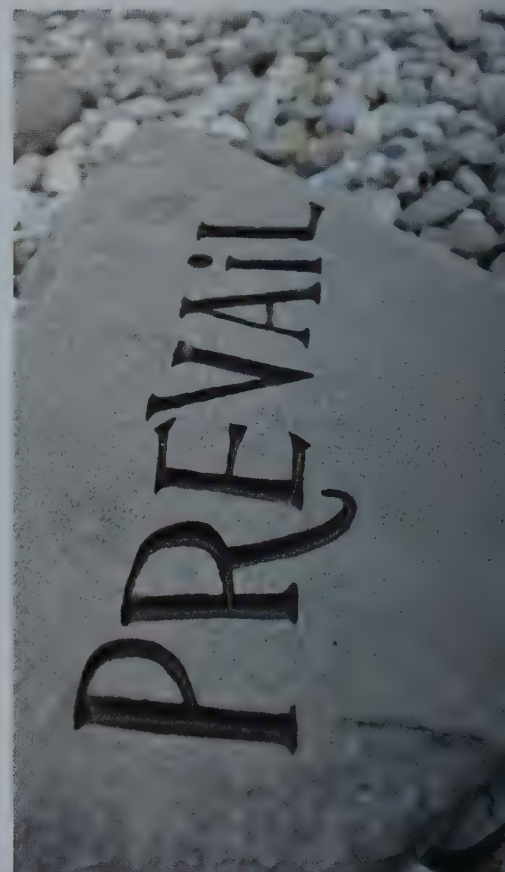

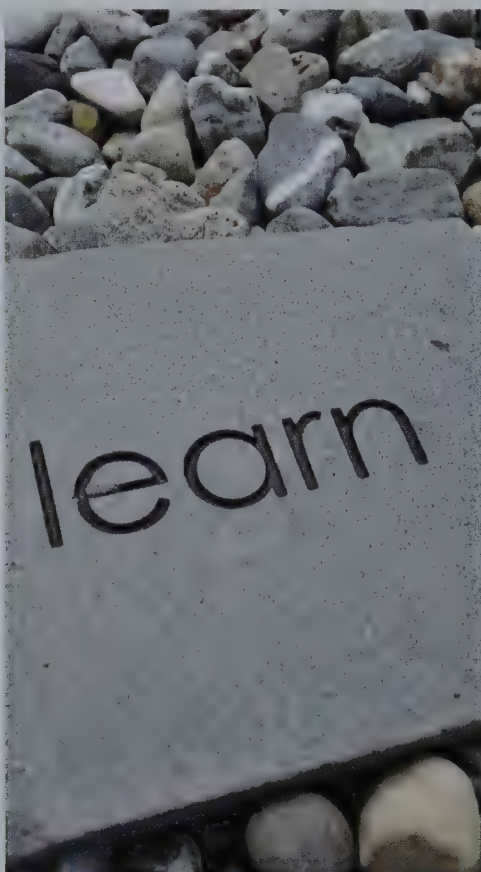

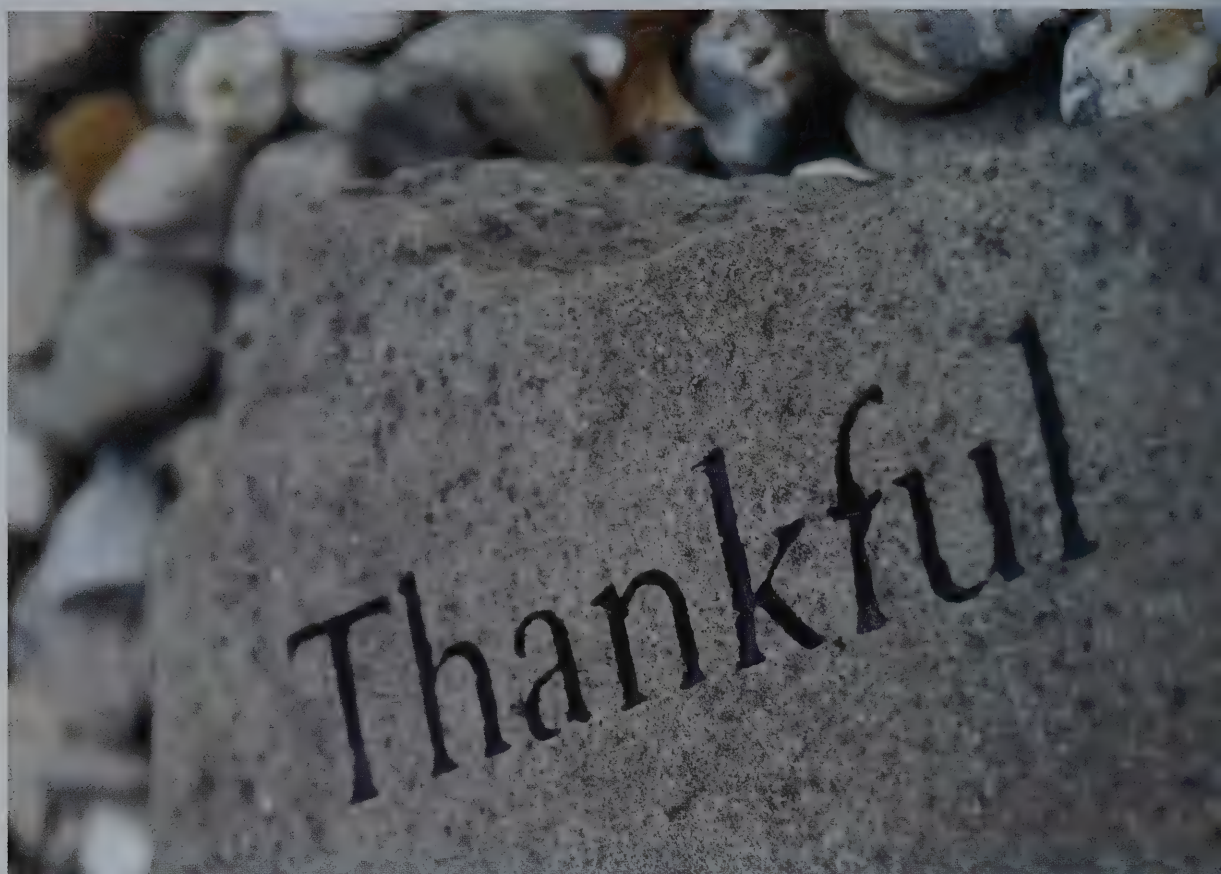

This yearbook is an opportunity to look back on these years with fondness. Read between the lines. Remember the smiles of the friends you made here. Know that you can revisit your time here on these pages, and never forget the lessons you learned here. I have been so privileged to put together this yearbook and to realize that I come after a class full of dreamers who are also doers. I know that your good doings will not stop here, so keep rising as you turn your dreams to reality in the "real" world. As Einstein once said:

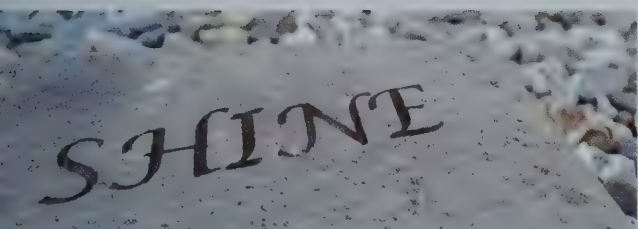

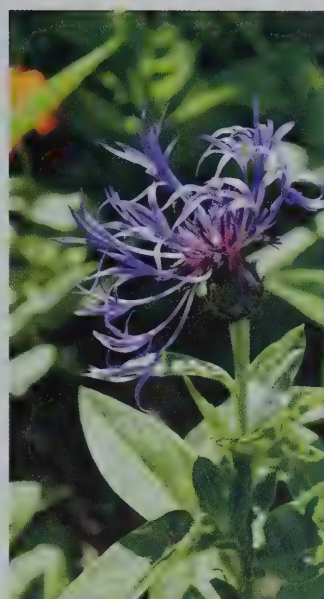

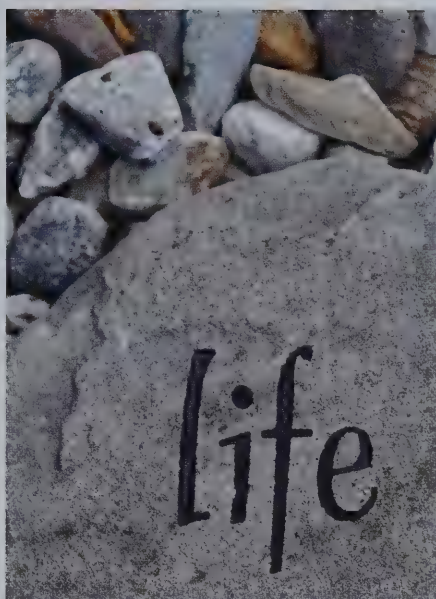

"Life is like riding a bicycle. To keep your balance, you must keep moving."

So keep moving, keep doing, and keep the purple and gold with you as you go.

Your editor,
Jackie Chisholm
